Instructions:

1. Cut along the solid lines as directed.
2. Fold along the dotted lines in alternating directions (as if making a fan)
3. Fold this in half with the long ends facing inwards and put this aside.
4. Roll the rectangular section along the long end to make a long stick
5. Fold this over the middle of the folded fan structure as shown in the picture.
6. Glue/staple the palm leaf close and secure the stem with tape/staple/twisting.

Roll up/fold into a stick
